

# CALL FOR PAPERS

**ICMSAEA 2020**  
**Apr 08-09, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSAEA 2020 : International Conference on Modeling Smart Actuators and Electroactive Actuators is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Modeling Smart Actuators and Electroactive Actuators. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Modeling smart actuators  
Smart actuators  
Piezoelectric actuators  
Shape memory actuators  
Electrorheological and  
magnetorheological based devices  
Magnetostrictive actuators

Electroactive actuators  
Modeling  
Design optimization  
Control  
Motion and position control  
Semi-active and active noise and  
vibration control
