

# CALL FOR PAPERS

**ICABBB 2020**  
**Apr 23-24, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABBB 2020 : International Conference on Advanced Biotechnology, Bioenergy and Biorefineries is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Biotechnology, Bioenergy and Biorefineries. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Objectives of using biofuels  
Biorefining technologies  
Biogas  
Large scale biogas production and challenges  
Biogas technologies  
Market potential of biogas reactors  
Biogas from agriculture waste  
Biogas production from algae  
New and possible substrates for biogas production  
Measuring and upgrading biogas environment  
Culturing algae  
Algae harvesting and oil extraction systems  
Algal production systems and cost effectiveness

Wastewater based algae biofuel production  
Genetic engineering in algae to increase productivity  
Commercialization of algae biofuels  
Algal biosequestration  
Biodiesel  
Biodiesel production from municipal waste  
Cost effective techniques and scale up strategies for biodiesel production  
Biodiesel as automobile fuel  
Enzymatic production of biodiesel  
Applications and environment impact of biodiesel  
Market opportunities  
Crops for biodiesel production  
Bioalcohols
