

CALL FOR PAPERS

ICMBBSME 2020
Apr 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMBBSME 2020 : International Conference on Bioengineering, Molecular Basis of Biopolymer Synthesis and Metabolic Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioengineering, Molecular Basis of Biopolymer Synthesis and Metabolic Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular basis of biopolymer synthesis and metabolic engineering
Synthetic biology for biopolymer production and biopolymer engineering
Bioreactors and biopolymer production technologies
Downstream processing
Analytics in the field of biopolymers
Biopolymer processing technologies and polymer stability
Biopolymers from non-natural monomers

Applications (including biomedical): biomaterials and biopolymers
Commercialization of biopolymers/market analysis
Life cycle assessment of biopolymer production and uses
Biopolymer and bioplastic degradation, recycling, and environmental fate
Biorefineries: feedstock and production chains
Other
