

# CALL FOR PAPERS

**ICCIS 2020**  
**Apr 23-24, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCIS 2020 : International Conference on Computational Intelligence Strategies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Intelligence Strategies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computational intelligence  
strategies  
Cognitive computing  
Intelligent computation  
Ambient computing  
Unconventional computing  
Indeterminist computing  
Adaptive computation

Autonomic computation  
Computation under uncertainty  
Chaotic computation  
Intentional computing  
Anticipative computing  
Evolutionary computing
