

# CALL FOR PAPERS

**ICCLCPS 2020**  
**Apr 23-24, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCLCPS 2020 : International Conference on Visible Light Communication, Positioning and Standardization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Visible Light Communication, Positioning and Standardization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Optical antenna design for VLC  
Channel modeling and  
characterization  
Information theory for VLC  
Channel estimation for VLC  
Coding and modulation for VLC  
Efficient signal processing for  
VLC  
MIMO technologies for VLC

MAC protocols for VLC  
Network-layer protocols for VLC  
Cross-layer optimization for VLC  
Visible light positioning  
Security issues for VLC  
VLC standardization
