

CALL FOR PAPERS

ICDECB 2020
Apr 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDECB 2020 : International Conference on Desert Ecology and Conservation Biology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Desert Ecology and Conservation Biology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Desert ecology
Desert ecology and conservation
biology
Biology and ecology of desert
species
The effects of climate change on
desert ecology
Adaptation of organisms to desert
climate
Landforms, geomorphology and
vegetation
Characterization of desert
climates

Wind and water processes
Patch—mosaic dynamics
Decomposition and nutrient cycling
Desertification
Monitoring and assessment
Desert ecosystems in the future
