

CALL FOR PAPERS

ICEAOAAD 2020
Apr 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEAOAAD 2020 : International Conference on Evolutionary Antenna Optimization and Antenna Array Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Evolutionary Antenna Optimization and Antenna Array Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Evolutionary algorithms
Heuristic optimization methods
Hybrid optimization algorithms
Antenna design
Antenna array design
Antenna optimization tools

Virtual beam steering
Real time process of phased antenna arrays
Equivalent circuit theory
Parallel and GPU processing
Antenna applications
