

CALL FOR PAPERS

ICEEDSB 2020
Apr 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEDSB 2020 : International Conference on Energy-Efficient Design and Sustainable Buildings is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy-Efficient Design and Sustainable Buildings. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy-efficient building design
Passive and active design principles
Energy-efficient and climate-responsive buildings
Environmental sustainability and building design
Responsible architecture and sustainable housing
Sustainable building envelopes

Embodied energy and operating energy
Building materials and construction systems
Reducing material consumption and optimizing material flows
Building services and systems
Retrofitting strategies for adaptive re-use
On-site energy generation, natural and mechanical cooling
