

# CALL FOR PAPERS

**ICEEDSB 2020**  
**Apr 23-24, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEDSB 2020 : International Conference on Energy-Efficient Design and Sustainable Buildings is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy-Efficient Design and Sustainable Buildings. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy-efficient building design  
Passive and active design principles  
Energy-efficient and climate-responsive buildings  
Environmental sustainability and building design  
Responsible architecture and sustainable housing  
Sustainable building envelopes

Embodied energy and operating energy  
Building materials and construction systems  
Reducing material consumption and optimizing material flows  
Building services and systems  
Retrofitting strategies for adaptive re-use  
On-site energy generation, natural and mechanical cooling
