

CALL FOR PAPERS

ICEIAII 2020
Apr 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEIAII 2020 : International Conference on Environmental Impact Assessment and Impact Identification is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Impact Assessment and Impact Identification. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

New approaches and cases of applications of environmental impact analysis
Project impact alternatives selection
Define environmental baseline (GIS and others) and environmental evolution without project
Impact identification, prevision and assessment
Integration of biodiversity, global warming, risk analysis and other environmental factors

Feasibility analysis of environmental measures
Environmental public consultation and governance
Efficiency of environmental impact assessment processes
Link between strategical environmental assessment, environmental impact assessment and sustainability
