

# CALL FOR PAPERS

**ICMEM 2020**  
**Apr 23-24, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMEM 2020 : International Conference on Marine Ecosystem and Microbiology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Ecosystem and Microbiology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine biology  
Chemical and physical oceanography  
Marine geology  
Paleoceanography  
Eutrophication and nutrient  
pollution  
Human impacts on marine ecosystem  
Tropical marine microbiology

Fish resources and engineering  
Biodiversity, ecosystem  
functioning, stability and  
restoration  
Coastal and marine resources and  
the environment  
Acidification of marine water  
Effects of melting ice  
Oceanographic instrumentation and  
sensors  
land ocean interactions in the  
coastal zone
