

# CALL FOR PAPERS

**ICRATM 2020**  
**Apr 23-24, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRATM 2020 : International Conference on Recent Advances in Translational Medicine is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Advances in Translational Medicine. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Translational medicine

Biomarkers in translational  
medicine

Role of translational research in  
blood disorders

Translational cardiology and  
vascular medicine

Translational therapeutics and  
technologies

Translational modeling of efficacy  
and safety

Clinical epidemiology

Translation of animal models to the  
clinic

Clinical and translational  
oncology

Immunology and infectious diseases

Advances in translational medicine
