The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTTCST 2020 : International Conference on Terahertz Technology and Communication Systems at Terahertz is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Terahertz Technology and Communication Systems at Terahertz. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Terahertz metamaterials and
metasurfaces
Terahertz antennas
Sensing at terahertz frequencies
Non-destructive testing
Terahertz imaging and its
applications

Terahertz spectroscopy
Communication systems at terahertz
Advanced terahertz materials
Plasmonics
