

CALL FOR PAPERS

ICAEE 2020
Apr 09-10, 2020
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEE 2020 : International Conference on Advances in Electrical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Electrical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fundamentals, materials and education
Electrical materials and process
Semiconductor technology
High voltage engineering and insulation technology
Electronic materials
Education and training for electrical engineers
Power systems and energy
Power system planning and scheduling
Power system protection, operation and control
Transmission and distribution systems and apparatus
Power system stability
Power generation and sustainable environment

Power market and power system economics
Power system modeling, simulation and analysis
HVDC and facts
Electromagnetic transients programs (EMTP)
Wind, solar and renewable energy
Electronics, information and control systems
Communication systems
Intelligent systems and approach
Information technology application
Control theory and application
Knowledge management
