

CALL FOR PAPERS

ICITUP 2020
Apr 09-10, 2020
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICITUP 2020 : International Conference on Intelligent Transportation and Urban Planning is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Intelligent Transportation and Urban Planning. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Intelligent transportation
Transport technology
Transport infrastructure and vehicles
Automatic fare Collection
Station management
Wayside control
Rolling stock system
Traffic management
Control room
Intelligent transportation system
Transport and traffic management
Wireless communications

Computational technologies
Floating car data/floating cellular data
Sensing technologies
Inductive loop detection
Video vehicle detection
Bluetooth detection
Audio detection
Information fusion from multiple traffic sensing modalities
Intelligent transportation applications
Emergency vehicle notification systems
Automatic road enforcement
Variable speed limits
Collision avoidance systems
