

CALL FOR PAPERS

ICPGE 2020
Apr 09-10, 2020
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPGE 2020 : International Conference on Physical Geology and Environment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Physical Geology and Environment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geological structures, earthquakes
and plate tectonics

Geology, earth materials and
geologic time

Ground water, glaciation and its
effect on the landscape

Oceans, atmosphere and climate
change

Explore earth materials and
processes

Fossils and evolution

Weathering and erosion systems

Minerals

Igneous rocks and volcanoes

Weathering and soils

Ground water

Mass-wasting

Evolution of landscapes

Drainage diversion

Sedimentary rocks

Fossils and evolution

Geologic time

Glaciers and ice ages

Wind erosion

Tides

Wave erosion and marine geology

Metamorphism

Deformation

Earthquakes and earth's interior

Continental drift and plate

tectonics

Orogeny
