

# CALL FOR PAPERS

**ICNTRTAM 2020**  
**May 14-15, 2020**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNTRTAM 2020 : International Conference on New Trends in Reflectarray and Transmitarray Antennas and Metasurfaces is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of New Trends in Reflectarray and Transmitarray Antennas and Metasurfaces. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Innovative  
reflectarray/transmitarray cells  
Quasi-periodic antennas for  
disruptive applications  
Reflectarray/transmitarray  
optimization, analysis and  
modelling of reflectarrays  
Reflectarrays with advanced  
performance  
Reconfigurable  
reflectarrays/transmitarrays

Reflectarrays in novel  
configurations  
Pattern synthesis techniques  
High frequency reflectarrays  
Conformal and non-planar  
reflectarrays  
Metasurfaces
