

CALL FOR PAPERS

ICMO 2020
May 22-23, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMO 2020 : International Conference on Molecular Oncogenesis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Molecular Oncogenesis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular oncogenesis
Molecular mechanisms of
oncogenesis
Oncogenic viruses and mechanisms of
oncogenesis
Mechanisms of oncogene activation
Molecular mimicry of tumor viruses
Cell cycle molecular basis of
oncogenesis
Molecular mechanisms of radiation
oncogenesis
Biology of tumor growth

Benign and malignant neoplasms
Molecular basis of multistep
carcinogenesis
Carcinogenic agents and their
cellular interaction
Clinical characteristic of tumors
Effect of the tumour in the host
Tumoral grading and staging
Laboratory diagnosis of tumours
