

CALL FOR PAPERS

ICPDPA 2020
May 22-23, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPDPA 2020 : International Conference on Phage Display, Principles and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Phage Display, Principles and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioengineering
Phage display
History
Principles
Applications
Antibody maturation in vitro
General protocol
Selection of the coat protein
Filamentous phages
PIII
PVIII

PVI
PVII and pIX
T7 phages
Bioinformatics resources and tools
Study of protein-protein interactions
Protein-peptide interactions
Protein-DNA interactions
Genetic information
Interaction networks
Signed interaction networks
RNA interference screens
