

CALL FOR PAPERS

ICCGE 2020
May 21-22, 2020
Berlin, Germany

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCGE 2020 : International Conference on Cancer Genomics and Epigenetics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cancer Genomics and Epigenetics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cancer genomics and proteomics
Cancer genomics and immunogenomics
Clinical cancer genomics
Whole genome sequencing analysis for cancer genomics
Modelling the activity of cancer genes
Inherited risk factors to cancer genomics

Genetic basis of tumor cell proliferation
The evolution of the cancer genome under mutation
Genetic basis of immune system and therapeutic interventions
Human comparative and prostate cancer genomics
Computational analysis in cancer genomics
Data analysis in cancer genomics
