

# CALL FOR PAPERS

**ICMNCEF 2020**  
**May 21-22, 2020**  
**Berlin, Germany**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMNCEF 2020 : International Conference on Marine Nutrient Cycle and Energy Flow is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Nutrient Cycle and Energy Flow. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine nutrient cycling  
Marine biogeochemical cycles  
Oceanic carbon and nutrient cycling  
Processes and patterns of oceanic nutrient limitation  
Central role of stoichiometry in microbe-nutrient interactions  
Microbial proteins and oceanic nutrient cycles  
Atmospheric control of nutrient cycling

Production in the surface ocean  
Marine microorganisms and global nutrient cycles  
Ocean carbon cycle and climate  
Primary productivity and biogeochemical cycles in the sea  
Nutrient excess in fresh and marine waters  
Nutrient deficiencies  
Threats to the global marine nutrient cycling system
