

CALL FOR PAPERS

ICSTABS 2020
May 21-22, 2020
Berlin, Germany

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSTABS 2020 : International Conference on Software Tools and Algorithms for Biological Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Tools and Algorithms for Biological Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biological engineering
(bioengineering)
Biological systems engineering
Biomedical technology
Biomedical diagnostics
Biomedical therapy
Biomechanics
Biomaterials
Genetic engineering
Synthetic biology
Horizontal gene transfer
Bioprocess engineering

Bioprocess design
Biocatalysis
Bioseparation
Bioinformatics
Bioenergy
Cellular engineering
Cell engineering
Tissue engineering
Metabolic engineering
Biomimetics
