

CALL FOR PAPERS

ICACL 2020
May 21-22, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACL 2020 : International Conference on Advances in Computational Linguistics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Computational Linguistics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Natural language processing
- Computational linguistics
- Sentiment analysis
- Dialogue and interactive systems
- Discourse and pragmatics
- Document analysis
- Natural language generation
- Natural language semantics

- Information extraction
- Text mining
- Machine learning
- Machine translation
- Question answering
- Natural language resources
- Textual inference
