

# CALL FOR PAPERS

**ICSCA 2020**  
**May 21-22, 2020**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSCA 2020 : International Conference on Scientific Computing and Algorithms is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Scientific Computing and Algorithms. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Scientific Computing and Algorithms  
Stochastic Differential Equations  
Computational Physics and Numerical Simulation  
Approximation  
Numerical Linear Algebra  
Numerical Integral Equations  
Error Analysis and Interval Analysis  
Mathematical Physics  
Difference Equations and Recurrence Relations

Numerical Problems in Dynamical Systems  
Probability and Statistics, Game Theory  
Applied Maths: Pattern Recognition and Image Processing, Machine Vision  
Decomposition and Reconstruction Algorithms, Subdivision Algorithms  
Continuous and Discrete Wavelet Transform  
Differential Algebraic Equations  
Numerical methods in Fourier Analysis  
Mathematical Modelling
