

CALL FOR PAPERS

ICASHT 2020
May 14-15, 2020
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASHT 2020 : International Conference on Advances in Surface Hardening Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Surface Hardening Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Surface hardening processes
Case-hardening
Novel process for surface
hardening
Laser surface hardening
Flame or induction hardening
Carburizing
Nitriding

Cyaniding
Carbonitriding
Ferritic nitrocarburizing
Surface hardening of engineering
materials
Surface hardening of steels
Surface hardening of gray iron
