

# CALL FOR PAPERS

**ICMTRFT 2020**  
**May 14-15, 2020**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMTRFT 2020 : International Conference on Movement Therapy Robots and Future Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Movement Therapy Robots and Future Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Movement therapy robots  
Stroke rehabilitation strategies  
Robot assisted stroke therapy  
Socially assistive robotics  
Movement therapy and assistance  
Bio-inspired design of soft robotic assistive devices  
Robotic devices for movement therapy  
Soft wearable robotics technologies

Design of robot assistance for arm movement therapy  
Robotic control strategies  
Assisting movement  
Challenging movement  
Simulating normal tasks  
Non-contact coaching  
Emerging technologies
