

# CALL FOR PAPERS

**ICCCS 2020**  
**May 04-05, 2020**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCS 2020 : International Conference on Crystallography and Crystal Structures is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Crystallography and Crystal Structures. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Crystallography  
Atomic resolution  
Catalysts  
Colloidal crystallization  
Computed radiography  
Crystal defects  
Crystal structure and properties  
Crystallization solutions  
Crystallography research

Advanced crystallography  
Crystallography in biology  
Chemical crystallography  
Crystal growth  
Crystallography of novel materials  
Electron crystallography  
Recent development in the x-ray studies  
Crystallography applications
