

CALL FOR PAPERS

ICMPSC 2020
May 04-05, 2020
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMPSC 2020 : International Conference on Microwave Photonic Systems and Components is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Microwave Photonic Systems and Components. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Microwave photonics
Microwave photonic components
Microwave photonic systems
Antenna remoting
Photonic integration
Microwave generations
Microwave photonic filtering

Rf photonic links
Optical beamforming
Radio over fiber
Microwave photonics applications
Commercial and defense applications
of microwave photonics
New opportunities for integrated
microwave photonics
