

CALL FOR PAPERS

ICPER 2020
May 18-19, 2020
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPER 2020 : International Conference on Production, Energy and Reliability is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Production, Energy and Reliability. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Production, Energy and Reliability
Automation & Advanced Manufacturing
Technologies
Design & Development in Mechanical
Engineering
Energy System Design & Thermo
Economics Analysis
Renewable Energy
Modeling & Simulation in Mechanical
Engineering
Theoretical & Experimental Methods
in Mechanical Engineering
Fluid Mechanics
Solid Mechanics
Mechanisms and Machines

Smart, Advanced & Functional
Engineering Materials
Low-Carbon Technology
Mechatronics
Automotive
System integration
Deepwater Technology
Onshore and Offshore Facilities
Plant, Equipment, Integrity and
Reliability
Combustion and Fuel Technology
