

CALL FOR PAPERS

ICRTMME 2020
May 18-19, 2020
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRTMME 2020 : International Conference on Real-Time Manufacturing and Manufacturing Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Real-Time Manufacturing and Manufacturing Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Real-time manufacturing
Real-time manufacturing systems and technologies
Real-time manufacturing integration
Real-time data collection and analysis for manufacturing
Real time manufacturing intelligence
Artificial intelligence for real-time manufacturing

Real-time manufacturing machine and system performance monitoring
Risk management for real-time manufacturing
Real-time manufacturing database architecture
Real-time manufacturing information tracking
Real-time manufacturing process monitoring
