

# CALL FOR PAPERS

**ICSMMME 2020**  
**May 18-19, 2020**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSMMME 2020 : International Conference on Self-Maintenance Machines for Manufacturing Engineering is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Self-Maintenance Machines for Manufacturing Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Self-maintenance machines  
Design methodologies for self-maintenance machines  
Smart sensor and prognostics for self-maintenance machines  
Self-maintenance and engineering immune systems  
Prognostics and health management

Condition based maintenance  
Artificial intelligence and machine learning  
Self-maintenance machines for industrial applications  
Self-maintenance machines for engineering applications  
Self-maintenance machines for manufacturing applications
