

CALL FOR PAPERS

ICST 2020
May 18-19, 2020
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICST 2020 : International Conference on Sustainable Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable Energy Technologies:
Bio-energy and Geo-energy
Energy in Transportation Systems
Energy Efficiency in Utilization
Environmental Issues
Energy Harvesting
Energy Storage Systems
Energy Market, Management and Economics
Energy Resources for Portable Electronics
Energy Efficiency in Utilization
Intelligent Energy, Power Transmission Distribution, Interconnects and Protection
Materials for Energy Resources
Nanotechnology in Energy

Off-grid Isolated Energy Systems
Power Electronics and Energy Conversion
Renewable Energy and Biofuels
Renewable Energy Managements, Economics and Environmental Impact:
Climate Change
Energy from waste
Environmental assessments
Environmental issues
Environmental policies and planning
Hazardous Chemical
Innovative use of Renewable Raw Materials
Offshore pollution and oil spills
