

CALL FOR PAPERS

ICEECD 2020
May 28-29, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEECD 2020 : International Conference on Elementary Education and Child Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Elementary Education and Child Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Elementary education	Individual and group
Hands-On teaching for concrete learning	accountability
Collaborative and cooperative learning	Holistic approaches to learning
The development of critical thinking as the primary goal of educational process	Child development
Education and modern technologies	Develop and use models
Theoretical and practical education	Plan and carry out investigations
Elementary school, knowledge and social skills	Analyze and interpret data
Motivation theory in educational practice	Use mathematics and computational thinking
Positive interdependence	Construct explanations and design solutions
Face-to-face interaction	Engage in an argument from evidence
	Obtain, evaluate and communicate information
