

# CALL FOR PAPERS

**ICVSCM 2020**  
**May 28-29, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVSCM 2020 : International Conference on Visual-Spatial Cognition and Math is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Visual-Spatial Cognition and Math. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Visual-spatial cognition  
Visual-spatial cognition and  
brain function  
Typical development of  
visual-spatial cognition  
Atypical development of  
visual-spatial cognition  
Typical improvement of  
visual-spatial cognition

Atypical improvement of  
visual-spatial cognition  
Modulation of visual-spatial  
cognition  
Visual-spatial cognitive and  
everyday functioning  
Math education and visual-spatial  
cognition  
STEM and visual-spatial cognition
