CALL FOR PAPERS

ICALDT 2020
May 21-22, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICALDT 2020: International Conference on Automotive Lighting: Design and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Automotive Lighting: Design and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Automotive lighting
Lighting technologies and applications
Headlamps
Dipped beam (low beam, passing beam, meeting beam)
Main beam (high beam, driving beam, full beam)
 Auxiliary lamps
Driving lamps
Front fog lamps
Cornering lamps
Spot lights
Electrical connection and switching
Sequential turn signals
Rear position lamps (tail lamps)

Stop lamps (brake lights)
Centre high mount stop lamp (chmsl)
Emergency stop signal (ess)
Rear fog lamps
Reversing (backup) lamps
Rear registration plate lamp
Identification lamps
Intermediate side marker lamps and reflectors
Rear overtake lights
Emergency warning devices
Hazard flashers
Retroreflectors
Variable-intensity signal lamps
