

CALL FOR PAPERS

ICBB 2020
May 21-22, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBB 2020 : International Conference on Bionanotechnology and Biorheology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bionanotechnology and Biorheology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Artificial organs	Biomedical engineering
Biocatalysis	Biomedical signal and image processing
Bioelectrical and neural engineering	Biomedical modeling and computer simulation
Bioenergy and biofuels	Biometric and biomeasurement
Biofluid mechanics	Bionanotechnology
Biorheology	Biophysics
Blood flow measurement techniques, microcirculation, hemodynamics	Current scenario of biotechnology
Biological systems	Industrial and microbial biotechnology
Biomaterials and biomechanics	Biotechnology and applications
