

CALL FOR PAPERS

ICBDIS 2020
May 21-22, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBDIS 2020 : International Conference on Bacterial Diseases and Immune System is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bacterial Diseases and Immune System. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bacteriology
Medical Bacteriology
Bacterial morphology and metabolism
Bacterial clinical studies
Bacteria in blood for transfusion
Human aeromonas infections
Joint infection by anaerobic bacteria
Papillon-Lefevre syndrome
Pyomyositis
Enterobacter sakazakii infections
Urinary tract infections
Bacterial vaginosis
Bacterial identification methods

Emerging infectious diseases
Bacterial pathogenesis
Oral vaccine platform for class a bacterial agents
Bacterial defense phagocytosis, immune responses
Antimicrobial agents infectious diseases
Pneumococcal vaccine
Gastroenteritis and Pertussis
Bacterial infectious diseases
Mycobacterial infections
Zoonotic bacterial diseases
Tetanus
Typhoid fever
Cholera
