

CALL FOR PAPERS

ICMPNM 2020
May 21-22, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMPNM 2020 : International Conference on Milk Processing and Novel Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Milk Processing and Novel Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Milk processing	Microbial analysis
Dairy production and products	Major components analysis
Milk processing and quality management	Components of milk
Milk processing technologies	Different products from milk
Hygiene practices in liquid milk dairies	Cream separation
Pasteurization	Milk standardization
Control of microbial contamination	Preparation of butter, ghees and yogurt
Animal health management	Cheese production
Facility hygiene	Current legislation of market milks
Milking operations	Safety of raw liquid milk
Milking machine design and operations	Heat treatment of milk
Bulk tank design and operations	Novel methods of milk processing
Identification of effective control measures
