

# CALL FOR PAPERS

**ICWHTPH 2020**  
**May 21-22, 2020**  
**Vancouver, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWHTPH 2020 : International Conference on Wearable Health Technology and Preventative Healthcare is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wearable Health Technology and Preventative Healthcare. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Healthcare wearables  
Healthcare wearable technologies  
Wearable health technology  
Smart wearable healthcare devices  
Wearable technology and  
preventative healthcare  
Wearable health technology in  
medical arenas  
Medical technology  
Design considerations and major  
challenges  
Sensor technology

User friendly design  
Connectivity technology  
Healthcare wearables in clinical  
trials  
Wearable sensors for remote  
healthcare monitoring system  
Branded hospital apps in patient  
engagement  
Patient safety  
Engineering applications  
Future directions  
Technological perspectives
