

# CALL FOR PAPERS

**ICACP 2020**  
**Jun 11-12, 2020**  
**Barcelona, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACP 2020 : International Conference on Advanced Ceramics and Properties is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Ceramics and Properties. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Materials behavior  
Powder metallurgy and ceramic forming  
Non ferrous metal material  
Iron and steel  
High strength alloys  
Materials processing and handling  
Composite materials

Materials forming  
Nanomaterials and nanomanufacturing  
Semiconductor materials manufacturing  
Advanced ceramics: synthesis, properties, and applications  
Advanced materials for solar energy conversion  
Advances in surface science and engineering
