

CALL FOR PAPERS

ICBEPT 2020
Jun 11-12, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBEPT 2020 : International Conference on Biofuels Engineering Process Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biofuels Engineering Process Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biofuels technology

The future of biofuels technologies and innovations

Biofuels engineering and technology

Biofuel production technologies

Advances in biofuel technologies

Biotechnology for biofuel production

First-generation biofuels

Second-generation biofuels

Second-generation biochemical biofuels

Second-generation thermochemical biofuels

Perspectives on first- and second-generation biofuels

Land-use efficiency for providing transportation services

Net energy balances

Greenhouse gas emissions

Objectives of using biofuels

Biorefining technologies

Biogas

Large scale biogas production and challenges

Biogas technologies

Market potential of biogas reactors

Biogas from agriculture waste

Biogas production from algae

New and possible substrates for biogas production

Measuring and upgrading biogas environment

Culturing algae

Algae harvesting and oil extraction systems
