

# CALL FOR PAPERS

**ICAMAWC 2020**  
**Jun 11-12, 2020**  
**Copenhagen, Denmark**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMAWC 2020 : International Conference on Advanced Materials for Aerospace and Woven Cloth is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Materials for Aerospace and Woven Cloth. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced materials for aerospace  
Standard ply laminates  
Non-standard laminates  
Double angle-ply laminates  
Non-crimp fabrics  
Thin ply material  
Spread tow manufacturing  
Woven cloth  
Very low crimp  
Multi-layered architectures

Buckling  
Vibration  
Strength  
Damage tolerance  
Thermal shape stability  
Design heuristics  
Ply percentages  
Ply contiguity  
Thickness tapering
