

CALL FOR PAPERS

ICANMNRT 2020
Jun 11-12, 2020
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICANMNRT 2020 : International Conference on Aircraft Noise Management and Noise Reduction Technology is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aircraft Noise Management and Noise Reduction Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aircraft noise management
Noise reduction technology
Noise considerations for
environmental impact assessment
Noise abatement procedures and
technologies
Aircraft noise mitigating measures
Aircraft noise monitoring
Reduction of noise at source
Noise and aviation growth
Land-use planning and management

Noise abatement operational
procedures
Portable noise monitoring
Sound insulation scheme
Daytime noise violation level
Aviation noise metrics
Single event based noise metrics
Time based noise metrics
Threshold based metrics
Track based measures
