

# CALL FOR PAPERS

**ICBBSBB 2020**  
**Jun 11-12, 2020**  
**Copenhagen, Denmark**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBBSBB 2020 : International Conference on Biomathematics, Biomedical Statistics, Bioinformatics and Bioengineering is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomathematics, Biomedical Statistics, Bioinformatics and Bioengineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomedical statistics  
Biomedical statistics and informatics  
Challenges in biomedical statistics  
Biostatistics, bioinformatics and systems biology  
Adaptive biometric systems  
Applied clinical biostatistics  
Bayesian methods in clinical research  
Bayesian statistics  
Beyond proportional hazards  
Bioinformatics  
Bioinformatics algorithms and databases

Biometric algorithms  
Biometric conformance test, test architecture and methodology  
Biometric devices  
Biometric enabled intelligence  
Biometric security  
Biometrics and biostatistics  
Biometrics applications  
Biostatistics - an approach to bioinformatics  
Biostatistics applications  
Biostatistics for high dimensional data  
Clinical biostatistics
