

CALL FOR PAPERS

ICBBSHC 2020
Jun 11-12, 2020
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBBSHC 2020 : International Conference on Blockchain for Biomedical Science and Health Care is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Blockchain for Biomedical Science and Health Care. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Provenance and trust management of medical devices or medications
Medical workflow enhancements with decentralized approaches
Security analysis of blockchain-based solutions
Decentralized management and monitoring of healthcare IoT/Edge devices
Anonymity and privacy in blockchain-based healthcare systems
Innovative architectures & platforms for driving health care interoperability

Scalability, security, privacy, and system robustness
Large datasets, AI, and Blockchain technology
Fraud detection and avoidance in medical billing
Biomedical Science DApps
Digital tokens, incentives, economic ecosystems
Medical or patient identity provision and maintenance
