

CALL FOR PAPERS

ICBEAM 2020
Jun 11-12, 2020
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBEAM 2020 : International Conference on Biomedical Engineering and Advanced Manufacturing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomedical Engineering and Advanced Manufacturing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomedical Engineering	Biomaterials and artificial organs
Biomedical device engineering	Biomolecular engineering
Biomedical robotics	Bioimaging
Computational biological systems	Biotransportation
Biosensors and bioelectronics	Cellular engineering
Rehabilitation engineering and surgical devices	Anatomy and physiology
Bioengineering	Biomedical signal processing and control
Nanobiotechnology	Bio informatics and genomics
Biomedical imaging and biosignals	Biomedical optics and lasers
Diagnostic techniques in dermatology	Molecular and cellular principles
Biomedical and healthcare engineering	Physiological principles
Biomedical technology	Biochemical reactions and enzyme kinetics
Biomechanics
