

CALL FOR PAPERS

ICBSMI 2020
Jun 11-12, 2020
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBSMI 2020 : International Conference on Biomedical Statistics and Medical Informatics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomedical Statistics and Medical Informatics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomedical statistics
Biomedical statistics and informatics
Challenges in biomedical statistics
Biostatistics, bioinformatics and systems biology
Adaptive biometric systems
Applied clinical biostatistics
Bayesian methods in clinical research
Bayesian statistics
Beyond proportional hazards
Bioinformatics
Bioinformatics algorithms and databases

Biometric algorithms
Biometric conformance test, test architecture and methodology
Biometric devices
Biometric enabled intelligence
Biometric security
Biometrics and biostatistics
Biometrics applications
Biostatistics - an approach to bioinformatics
Biostatistics applications
Biostatistics for high dimensional data
Clinical biostatistics
