

# CALL FOR PAPERS

**ICBSSP 2020**  
**Jun 11-12, 2020**  
**Copenhagen, Denmark**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBSSP 2020 : International Conference on Bio-inspired Systems and Signal Processing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bio-inspired Systems and Signal Processing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bio-inspired Systems and Signal Processing  
Medical Signal Acquisition, Analysis and Processing  
Wearable Sensors and Systems  
Real-time Systems  
Biometrics  
Pattern Recognition  
Fuzzy Systems and Signals  
Evolutionary Systems  
Neural Networks  
Speech Recognition  
Acoustic Signal Processing

Time and Frequency Response  
Wavelet Transform  
Medical Image Detection, Acquisition, Analysis and Processing  
Physiological Processes and Bio-signal Modeling, Non-linear Dynamics  
Monitoring and Telemetry  
Cybernetics and User Interface Technologies  
Electromagnetic Fields in Biology and Medicine  
Cardiovascular Signals  
Image Analysis and Processing  
Detection and Identification  
Motion Control
