

CALL FOR PAPERS

ICDAS 2020
Jun 11-12, 2020
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDAS 2020 : International Conference on Digital Avionics Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Avionics Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Digital avionics systems
Digital avionics modeling and simulation
Avionics systems for aircraft/rotorcraft/unmanned aircraft
Navigation, communications, sensors, and avionics architectures
Aeroengineering and avionics systems
Aeronautics and space avionics
Air traffic management

Avionics and flight-critical systems
Communication, navigation, and surveillance (cns) systems
Integrated modular avionics
System engineering
Unmanned systems and networks
Emerging technologies in avionics
Software in avionics
