

CALL FOR PAPERS

ICDWC 2020
Jun 11-12, 2020
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDWC 2020 : International Conference on Diaphragm Walls Construction is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Diaphragm Walls Construction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Diaphragm walls
Construction of concrete diaphragm walls
Drilling slurry
Concrete diaphragm walls
Clay diaphragm walls
Analysis of diaphragm walls

Diaphragm wall construction
Equipment for diaphragm wall construction
Current practices in deep foundations and diaphragm wall construction
Functional requirements for permanent diaphragm walls
Deformation behavior of diaphragm walls in deep excavations
Field instrumentation in geotechnical engineering
